

Authorized Discharges

The discharges into the street system, channels and ponds in Midland County urbanized areas (MS4) that are authorized under this permit include:

- Stormwater runoff

And the following Non-Stormwater flows:

- Water line flushing discharges, but not if hyper-chlorinated
- Runoff from irrigation
- Discharges from potable water sources that don't violate Texas Surface Water Quality Standards
- Diverted stream flows
- Rising ground waters and springs
- Uncontaminated ground water infiltration
- Uncontaminated pumped ground water
- Foundation and footing drains
- Air conditioning condensation
- Water from crawl space pumps
- Individual residential vehicle washing
- Flows from wetlands and riparian habitats
- De-chlorinated swimming pool discharges that don't violate Texas Surface Water Quality Standards
- Street wash water, but excluding street sweeper waste water
- Flow from emergency firefighting activities, not including washing of trucks, training activities, test water from fire suppression systems, etc.
- Other allowable non-stormwater discharges defined as those non-stormwater flows that have not been identified by Midland County or by TCEQ as a significant source of pollutants to the Midland County.
