

Tile Coasters

MATERIALS

- Ceramic Tile
- Mod Podge
- Foam Brush
- Paper plate or bowl
- Cork or Felt
- Hot Glue
- Scissors
- Ruler
- Decorative Paper

DIRECTIONS

1. Cut your decorative paper to fit on top of the ceramic tile. It needs to be just barely smaller than the tile.
2. Using the foam brush paint a light layer of glue on the top of the tile.
3. Gently position the decorative paper on the top of the glue and smooth out any bubbles or bumps. It is helpful to use an old credit card to smooth the paper down.
4. Brush another light layer of glue on to the decorative paper to seal it to the tile making sure to seal the sides as well. Then allow to dry completely.
5. Cut a square piece of thin cork or felt and then glue it to the bottom of the tile to complete your coaster.
