

Heart Garland

MATERIALS

- Carboard
- Heart Template
- Scissors or Box Cutter
- Yarn & String
- Wooden Beads

OPTIONAL MATERIALS

- Small Crochet Hook or Yarn Needle
- Cutting Mat
- Tape

DIRECTIONS

1. Cut out the template and use to trace hearts onto carboard.
2. Carefully cut out your hearts. You may want to use a cutting mat, if using a box cutter
3. Wrap the yarn around the cardboard heart. You can tape the yarn to the heart to get started.
4. Once the heart is completely wrapped, slip the end of the yarn under a previously wrapped piece to keep the loop at the top of the heart. Form a loop and tie a couple knots. Make sure the loop is big enough to go over the beads.
5. Tuck the end of the yarn under other strands of yarn to hide it, a yarn needle may be helpful for this step.
6. Thread the wooden beads on the string. Make a loop at each end and knot for easy hanging.
7. String the hearts over the beads where you want them. The hearts can be exchanged for the season without unstringing the beads.
