

RFP 22MCO595

In response refer to RFP No. 22MCO595 Addendum 1 and Response to Questions August 30, 2022

Gentlemen/Ladies:

In this Addendum, we have added a map of Midland County Roads (ATTACHMENT A, page 2). Please note the legend on the bottom of this map to indicate which roads belong to Midland County. Also please note, this map does not indicate whether the roads are paved, caliche or millings. ATTACHMENT B (pages 3-53) containing a list of county roads is also added herein.

Please see the following addition of the RFP on page 10:

CONTRACT TERM:

During the contract term, the Road and Bridge Director of Operations will notify the vendor of when to mow the county roads. This is typically done every quarter; however, there may be times that the R&B Director will advise vendor that all paved county roads need to be mowed due to increased vegetation relating to weather incidents. Vendor must begin paved mowing county roads within 2 days of notification. Vendor must let R&B Director know when mowing will begin and when it is complete. This contract will last for 12 months and renew annually, unless either Midland County or Vendor provides a 30-day notice to cancel or not renew. Any increase in cost will need to be submitted to the County Judge by May 1st of each year so that the request can be reviewed and considered during the budget process. Any increases will take effect the following October 1st, the beginning of Midland County's fiscal year.

The following questions has been asked and is hereby answered:

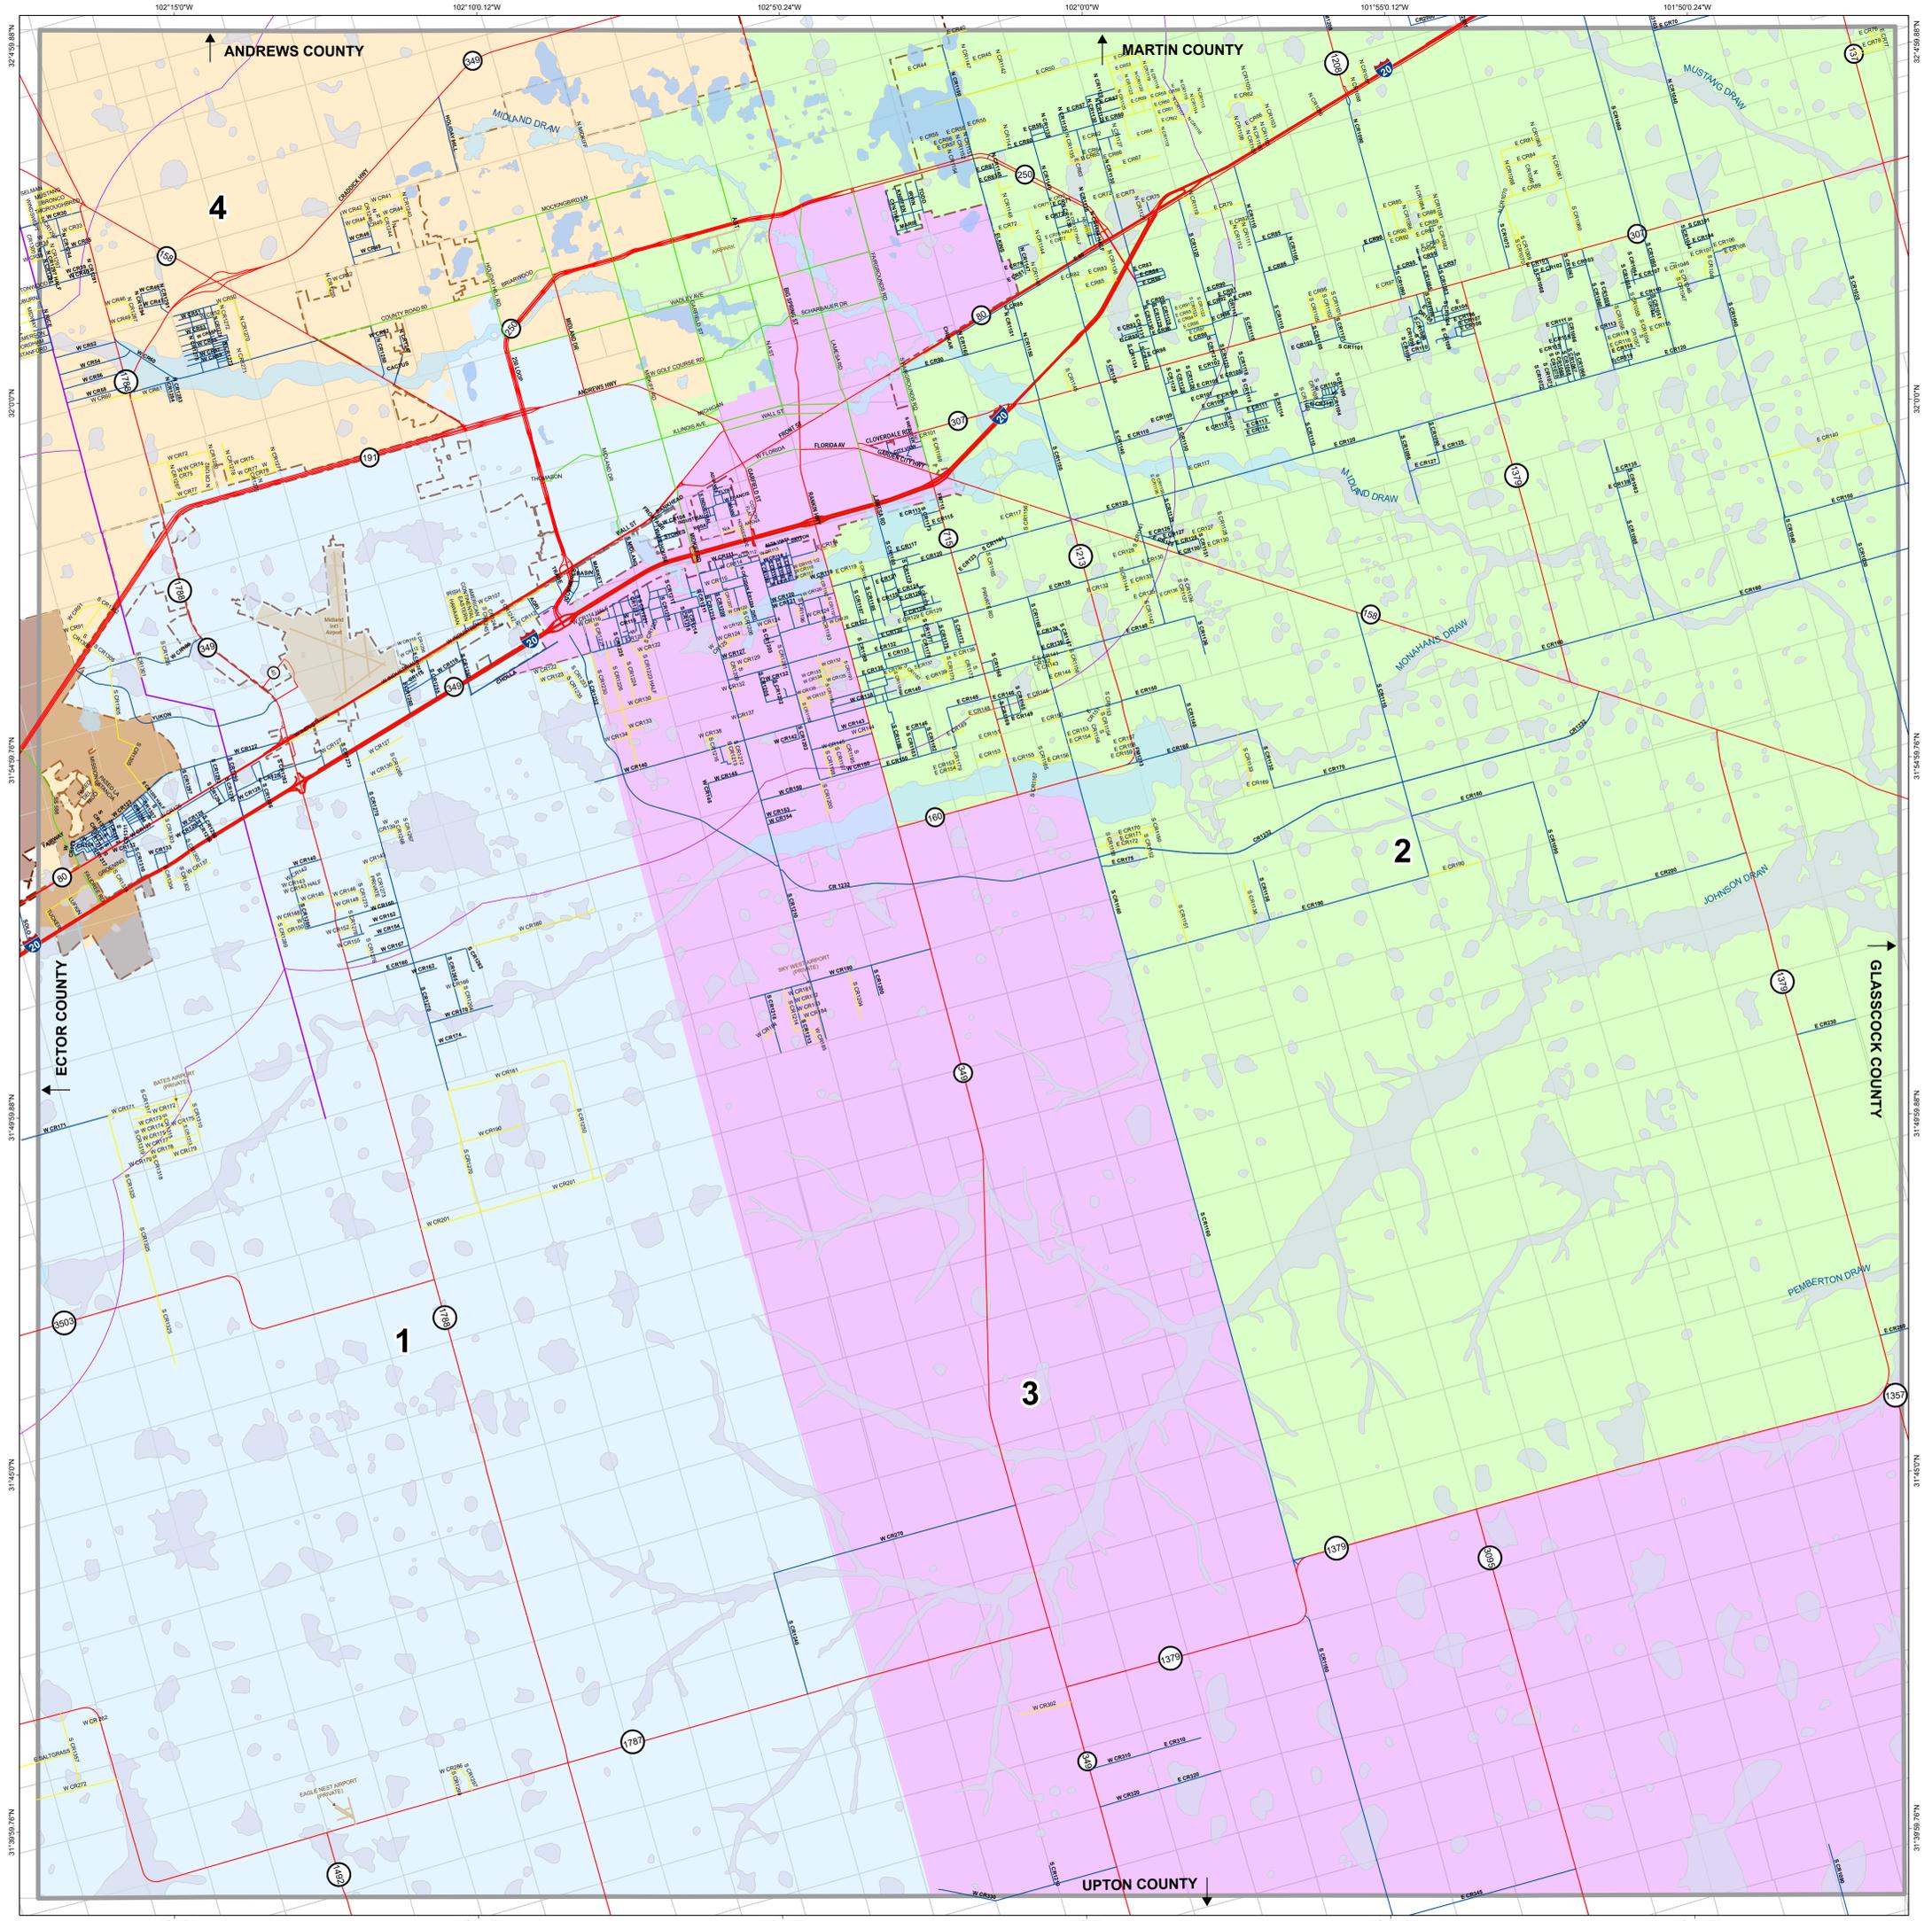

1. Is it just one pass off the road or how many ft wide are the roads with it being bid by the mile and not by the acre?

The entire right of way of each paved road (both sides) need to be mowed. Some roads may only have a few feet of right of way in one section, but may have many more feet or even acres further down the road. This is why we are asking for a cost per mile of road.

2. In this request, the county is asking for a price per mile and also a price per acre for spot mowing. Are there any maps available for the highways needing the mowing? We normally give a per-acre price but would need to measure how many acres there are per mile. Is this info available? A ROW mile can consist of 5 acres per miles or 20 acres per mile which, in this case, can leave plenty of room for mis-measured errors.

Attachment A, issued in this Addendum, is a map of county roads. Please note that this map contains caliche, millings, and paved roads. Attachment B, issued in this Addendum, is a list of paved county roads. The request for spot mowing would be in the instance that we need a certain areas mowed that may be overgrown due to flooding.
