

RFP 23MCO619

NOTICE OF CANCELLATION WITH INTENT TO REBID

December 19, 2023

It has come to our attention that a potential bidder emailed questions, after the deadline, directly to the engineers Magrym Consulting. A team member from Magrym Consulting then responded with answers to those questions directly to that potential bidder and Midland County; other potential bidders were not included in this correspondence.

Because all communication regarding the bid must flow through the Purchasing department in order to ensure fairness, the bid process for this RFP has been compromised. It is for that reason that Midland County Commissioner's Court has voted today to cancel this RFP with intentions to re-release this RFP with all questions being answered or addressed in the new specification and drawings.
