

## **Temporary Utility within Midland County**

In the event a grantee is requesting use of County culvert or other infrastructure to cross a road with TEMPORARY utilities, the following shall be required:

- Department of Public Works inspector to inspect the area to ensure the infrastructure can handle the encumbrance.
- Define installation date on the permit.
- 90 day maximum for TEMPORARY utility crossing through our infrastructure
- Define calendar date of the 90<sup>th</sup> date.
- Upon 90<sup>th</sup> day the utility is to be removed or new permit application sent in for 90 day extension
- During the 90 day duration, weekly inspections by the user to ensure no additional blockages occur
- Report weekly to Department of Public Works that inspection has been made
- Permit fees apply to original requests and all subsequent requests
